

# PRATLEY®

## RUBBER TAPE Self-Fusing

0.5 mm x 19mm x 1.6m  
(4 rolls per pack)

Dispenser  
20 x Carded Packs  
Product Code 91005

PRATLEY RUBBER TAPE is “self-fusing”. It fuses (amalgamates) to itself once wrapped and has 1001 uses. The self-fusing property prevents it from coming loose and renders it useful for fixing low pressure leaking pipes, making handle grips and the like. It is also a high voltage electrical insulator.

### SOME SUGGESTED USES:

- Repair low pressure hosepipe leaks.
- Repair hoses and pipes on cars (not exhaust pipes).
- Seal cables and insulate wires.
- Seal coolant pipes.
- Make a neat grip on sports equipment.
- Grips for racquet (sports) handles.
- Bind rope ends so they don't unravel.
- Separate mechanical parts that rattle or chafe.
- Insulate spark plug leads.
